

11/03/16

Évohé

Show length : 30 minutes

It's possible to play the show twice in the same day. (please ask us for condition)

If you order 2 shows in the same day it's important to respect following breaks condition between shows :

-> either 15mn between shows

-> Or 1 h 40 mn between end of the first one and start of the second one.

TECHNICAL RIDER

« Evohé » is a street art show and can be play during the day or in the night. If it's a night show or indoor, the organizer should provide lighting equipment and technician to set up/ taking down and during the show (see below).

We need 4 hours before the first show to set up structure and sound equipment, sound check and training :

- Structure set up : 90 mn
- Sound set up must start 3h30mn before first show
- Sound check will start 2h45mn before first show

1h to take down and loading.

Place :

The place to set up the structure has to be **flat (0%)**.

In case of small ground deformation or small difference level, please provide us wood plates of 50 x 50 cm (1,5' x 1,5') with différents thickness.

Show can be play on grass, ferro concrete, bitume....

As much as possible the place has to be shielded from the wind.

Minimum space to set up structure :

9m of diameter + audience area. (see plot include)
